EDITORS COMMENTS:

During this last year, Skates on/off Haight has committed to expanded technology to serve YOU, our customers. Going from manual mailorder taking to real-time computerized phone lines, FAX world wide, and now, with this issue, a computer-generated catalog that will in the coming issues go beyond simply listing the products available. In this issue, you will find a chart to compare weights of trucks, and give you helmet sizes; information we think you want.

For our next issue, we will have a group of students generate information and reviews. We are providing the forum, your comments and desires are requested: suggest topics, submit ideas, ask questions, give us your experiences! See address below.

SKATES ON HAIGHT is no longer just your ordinary skateboard shop! You deserve the best, and this time 'round this is as good as we can do. In the future, you will be able to use your home computer to look-up supply of an item RIGHT NOW
